

★Be sure to dispose of your garbage at the designated waste collection point, from early morning to 8:30 a.m. on the collection day

★Each household has a limit of three 45 liter (L size) burnable waste bags per collection day

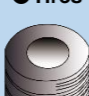

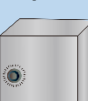

★Please purchase designated garbage bags for burnable, empty cans, empty bottles, plastic bottles, food trays at stores in the city. Garbage in other bags will not be collected

★Anything that exceeds 60 cm in length, width, or height is classified as "bulky waste" (with some exceptions)

Recyclables	Burnables	<ul style="list-style-type: none"> ●Kitchen refuse Keep your kitchen wastes dry or drain all liquids completely ●Non-recyclable such as paper, vinyl, Styrofoam, soft plastics and videotape ●Clothes, shoes and bags ●Disposable diapers Remove filth from paper diapers ●Twigs or Garden trimmings 自治会名氏名 	<ul style="list-style-type: none"> ●Place your waste in the designated burnable waste bag, and indicate your name and the name of your neighborhood association (or town name/area name) on it ●Cut the branches to 10 cm or less in thickness and 60 cm or less in length and tie them together, and affix a paper with your name, the name of your neighborhood association or the town name ●Dispose of leather clothing as "burnable waste" 	<p>※Even paper waste that has been soaked in rain will be collected as scheduled.</p> <p>※Please do not place recyclable papers in plastic or paper bags (except small pieces of papers).</p>
	Newspapers	<ul style="list-style-type: none"> ●Newspapers and flyers 	<ul style="list-style-type: none"> ●Either fold insert fillers into newspapers or separate them into alternating bundles, and tie them crosswise with a string ●Write "Property of Tochigi City" in permanent marker on top 	
	Other paper and magazines	<ul style="list-style-type: none"> ●Magazines, manga, books, large sheets of paper, empty boxes (tissue boxes, etc.) ●Small pieces of paper 	<ul style="list-style-type: none"> ●Please tie up magazines and other paper materials separately ●Please cut up large empty boxes and tie them together ●Place small pieces of paper (★) that cannot be bundled with a string (do not include items with plastic parts) in a paper bag, and tie up the bag, or seal the bag with staples <p>★Small pieces of paper include: caramel or cigarette boxes, paper cores from toilet paper or saran wrap, envelopes, memo pads, business cards, tickets, postcards, envelopes for a gift of money, and egg cartons and so on. ※For paper with personal information on it, either black out or cut out this section and dispose of as much as possible as recycling ※Carbon paper, scented paper (incense or detergent boxes, etc.), water-proof paper (paper cups, paper plates, wax paper, etc.), heat-sensitive paper (fax paper, receipts, etc.), shredded paper, pictures, and seals cannot be recycled, so please sort them with "burnable waste"</p>	
	Cardboard	<ul style="list-style-type: none"> ●Cardboard ●Rice bag 	<ul style="list-style-type: none"> ●Tie up cardboards and rice bags in a separate bundle ●Remove tape and insulation, and dispose of them as "burnable waste" 	
	Cartons	<ul style="list-style-type: none"> ●Cartons 	<ul style="list-style-type: none"> ●Rinse the inside with water, cut it open then dry it, tie only the paper cartons up crosswise with a string 	
	Cans, Glass bottles	<ul style="list-style-type: none"> ●Cans Snacks and candy containers can be sorted as "cans" Please remove any leftovers and wash food cans before disposal ●Glass bottles Remove the cap and rinse the inside lightly before disposal Dispose of caps as "non-burnable waste" 	<ul style="list-style-type: none"> ●Cans and glass bottles for food or drink only (including pet food). Dispose of all other cans and glass bottles as "non-burnable waste" ●Place cans and glass bottles together in City's designated garbage bags, and write your name and the name of your neighborhood association (or town name/area name) on it ●Dispose of caps from bottle-shaped cans, lids from canned food or candy, cans with paper stuck to them, and dirty or rusted items as "non-burnable waste" 	
	PET bottles	<ul style="list-style-type: none"> ●PET bottles Only the ones with a PET mark 	<ul style="list-style-type: none"> ●Remove the label and dispose of it as "burnable waste" ●Dispose of caps as "non-burnable waste" 	
	Food trays (Styrofoam trays)	<ul style="list-style-type: none"> ●White trays Dispose of Styrofoam trays used for raw fish, meat, or vegetables, regardless of their color or pattern, as "burnable waste" ●Patterned trays Dispose of trays used for natto or cup ramen as "burnable waste" ●Colored trays How to identify food trays (Styrofoam trays)? Recyclable food trays can be distinguished by their soft surface, which can be punctured with a wooden toothpick. 	<ul style="list-style-type: none"> ●Remove lapping and leftovers and lightly rinse the tray before disposal ●Dispose of plastic and paper plates as "burnable waste" 	
	Small home appliances	<ul style="list-style-type: none"> ●Household fans and vacuum cleaners ●Digital and video cameras ●Portable music players and game machines ●Barber equipment ●Personal computers and accessories ●Mobile phone 	<ul style="list-style-type: none"> ●Place waste in a see-through bag, and write your name and the name of your neighborhood association (or town name/area name) on it. If the largest dimension is larger than (over) 60 cm, it is a bulky waste ●For items under 40cm that contain personal information (such as mobile phones or laptops), please use the collection boxes at the City Hall Environment Division, Tochigi Clean Plaza, and each general branch office ●Kerosene stoves and products containing CFCs should be disposed of as "bulky waste" regardless of the size ●Fabrics or wooden parts must be removed and take it out as "non-burnable waste" 	
	Ceramics, hard plastics, etc.	<ul style="list-style-type: none"> ●Lids and caps from cans, glass bottles, and PET bottles Lids from cans ●Hard plastic such as shampoo or soap bottles, detergent containers ●Light bulbs (other than fluorescent lights) ●Ceramics ●Glass ●Golf bags Dispose of golf balls as "burnable waste" ●Umbrellas 	<ul style="list-style-type: none"> ●Place waste in a see-through bag, and write your name and the name of your neighborhood association (or town name/area name) on it ●Wrap broken glass, knives, and other sharp objects in paper and clearly label them "Warning: Glass" or the like ●Objects larger than 60 cm must be disposed of as "bulky waste" <p>How to identify plastic products The hardness of the PET bottle, not with or without the plastic mark, is the approximate standard. The softer ones are "burnable waste", and the harder ones are "non-burnable waste" (For example, egg and tofu cartons, plastic shopping bags, mayonnaise and ketchup containers, pre-made food packages, snack food packages, etc. are soft, so they are "burnable waste")</p>	

Uncollectable waste

Industrial waste, high-volume waste

Never leave industrial waste, high volume waste at any waste collection point.

●**Industrial waste:** Waste generated by business activities, regardless of whether it is for profit or not for profit. (Offices, restaurants, shops, factories, hospitals, etc.)

●**High volume waste:** A large volume of waste produced in special circumstances, such as when moving or doing spring cleaning. (30kg or more at once).

How to dispose

★**Bring it yourself to the cleaning center.**

Tochigi Clean Plaza Tel: 31-2446

456-32, Azusa machi, Tochigi city

Operating hours
Mon. to Sat. 8:30 AM to 4:30 PM

Closed on Sundays and holidays.

Fees ¥250/10kg (¥250 for every 10kg or less)

★**Request collection from a city-licensed collection and disposal contractor**

For information about city-licensed contractors, contact the Environment Division.

4 kinds of home appliances

(Televisions, refrigerator/freezers, washing machines/clothes dryers, air-conditioners)

As per the Home Appliance Recycling Law, municipalities cannot collect televisions, refrigerators/freezers, washing machines/clothes dryers, air-conditioners. Choose one of the following four methods when disposing.

①Contact a home appliance retailer about disposal.

The total cost of recycling includes the fee of appliance recycle ticket and the fee of collection and transportation. The total cost must be paid to a home appliance retailer.

②Bring home appliances mentioned above to a designated place by yourself.

Only the fee of appliance recycle ticket is required.

(Designated place: Kyodo Rikun 474-4, Shizuwa Iwafune-cho Tel: 0282-28-6320)

③Request collection from a city-licensed company

For information about city-licensed company, contact the Environment Division.

④Request the city to collect

Apply for a collection request on the dedicated reception number for bulky waste.

Pay for the total cost of recycling which includes the fee of appliance recycle ticket (cost of refurbishing) and the fee of collection and transportation.

Cost of material recycling
(Appliance recycle ticket)

+ The fee of collection
and transportation

= Cost of recycling

※**Never leave any of 4 home appliances at any waste collection point, regardless of the size.**

Call the Appliance Recycle Ticket Center about the fee for recycle ticket, etc. Tel: 0120-31-9640
