

To all foreign nationals living in Tochigi City

English, ver

Please answer the survey

The number of foreign nationals in Tochigi City is increasing, and people of various nationalities and residence status live here. Therefore, Tochigi City is creating a "Multicultural Coexistence Promotion Plan" to make the city "a place where both foreign nationals and Japanese people can live comfortably."

Purpose of the survey

[What is multicultural coexistence?]

To recognize the differences between people of different countries and races, and to live together on an equal footing

We will conduct a survey to make Tochigi a more livable city for you. Please answer the questionnaire about "work," "life," "study," "interactions," etc. We need a lot of responses, so please tell your foreign friends and coworkers about this survey. Any foreign nationals over 12 years old living in Tochigi City can answer this questionnaire. We appreciate your cooperation.

How to answer

Response deadline: August 31, 2025

Please read the QR code and answer the questions using your smartphone or computer.

If you have any questions, please contact us at the phone number or email address listed below.
